Hi Eva

I spoke with Bristol ADA Dan Hourihan (508) 961-1821. He informed me that the Lab is cooperating with him on obtaining forensic testing information on the sample that was tested. He understands the Lab's position w/respect to information regarding AD. I advised him that you had been assigned the case to defend the Department should the defense seek to obtain a court order. I gave him your phone number. Let me know if you have any questions or concerns. Steve
